DIESEL PARTICULATE FILTER CLEANING

\$225 DPF CLEANING

\$325 CLEAN & BAKE

\$75 DOC CLEANING

Cleaning your DPF is all about increased performance. A diesel particulate filter is a device that is used to remove grime and soot from the exhaust gas of a diesel engine. If these parts are gummed up, your engine's performance will suffer. Blaine Brothers Family of Companies provides quality filter cleaning, at a reasonable cost using proven technology.
